

Did you get the grand jury report?

Is it out?? I checked yesterday and it wasn't posted yet

Will look now

Not seeing it

Okay to share it?

Driving ill to her water polo game then will dive in!

Thank you so much for sharing it. I'd hope they'll be sharing with me soon too!

Maybe. I will!

Only two pages in and so frustrated

Yes we've grown since 2005 but they don't acknowledge how much housing we've added!

We have less students in neighborhoods than in 2005. This year is an anomaly but at least last year. I'll send exact numbers.

It really is like the anti-student neighbors wrote it. At least 1.5 pages in

Omg. Two senior police officials refused to talk to them! Why? So many of your other leaders did

They emailed it to me today. I guess it gets posted in two days.

Coming your way

I just finished reading it. I look forward to hearing your take on it.

Good luck to Lily at her meet. Sounds good. Let me know what you think. They may have only sent it to Geoff and then it will eventually get to you. Who knows

It as though some of our local friends wrote it

I'm working on a rebuttal. Problem: Cal Poly is not identified in the report as a required respondent so I don't believe they intend to share it with us at all before it's published. Our leadership has not received it!

I emailed Reggie (who I've interacted with for the past year on this) and represents the G.J, asking her for an advanced copy for review.

If she doesn't send it to me, are you comfortable with me emailing them my corrections based on you sharing it? I will send you what I'm proposing...

And sincere apologies for interrupting your Saturday morning! Ugh!

Did you see this title they included: "IS SLO CITY IN THE TWILIGHT ZONE ABOUT ZONING ISSUES?"

Seems so unprofessional!

I have so many issues with this whole thing.

Happy to share your responses. I have so many problems with this thing as well. Love to chat with you about it. Let me know if you have time this afternoon to chat.

Not to overstep, but on the city side, seems helpful to provide the GJ with Wallace's FACTS on decreasing noise violations over time. As you know, They've dropped a ton and remained pretty steady (outside COVID) over the last decade. Counter to some of their accusations that those issues are ratcheting up.

The framing of the whole narrative is wrong.

I can't wait to get Whitney, Christine & Rick's take. There's so much wrong and left out in this report

Right. Trying to tell a complex story in a few, short, misrepresented and not factual pages.

Mon, Jun 16 at 9:29 AM

So many people have the advance copy of the report now... they'll never know it came from you. Still greatly appreciate you stepping out for what's right!

So interesting. I told Whitney that I had assumed the university was going to be asked to respond and therefore I gave it to you. So if it ever comes up, I'm fine with being outed if I have to.

Of course you would! Argh!
